**Many thanks to all who helped me to construct the  
Grossbard family tree, to all who had patience for me when  
I called, when I kept sending mails over and over,  
when I asked for more and more information.  
It is due to you that we have an almost complete family tree.**

**The family tree contains around 2400 names, covering about 95% of our family.  
Members of our family live today in all five continents, they can be found in  
Israel, Thailand, New Zealand, Australia, South Africa, England, France,  
Germany, Italy, Canada, United States and Argentina.**

**No one remained in the countries that we originated from: Lithuania, Latvia,  
Ukraine and Poland, which were part of the Russian Empire.**

**The lucky ones immigrated before the beginning of WWII, of the others,  
some were lucky to survive the atrocities of the war and immigrated.**

**Many were murdered by the Germans and their collaborators.**

**In the family tree you will find many names of the victims, but there are others  
that we will never know their names.**
